Revealing the
power of the tree.

Stefan.

CAPTURE THE ESSENCE.

Stefan Knopp's furniture and objects are an elementary experience. After understanding the origin and natural charisma of the wood, Knopp applies unique surface treatments that highlight the individual character of every tree. Only the intense contact and interaction with the material determine each step of his craft and thus emphasise each tree trunk's special particularities.

Knopp.

Trees have always
been a symbol of life
and growth.

The Power.

EVERY ENCOUNTER IS UNIQUE.

In the forest. This is where Nature and Knopp meet to mark the beginning of an extraordinary journey. Stefan Knopp's deep involvement with the tree is essential to crafting intimate pieces shaped by pure authenticity. Since a tree's remarkable complexity is embedded in a metamorphosis of corners, edges and cracks, it takes patience to unfold its character. Therefore, transforming wood into a piece of furniture is always an aesthetic act full of anticipation of the final object's essence and unshakeable power.

The Origin.

Starting something
new takes courage.

The Path.

NEW PATHS EMERGE WHEN WE WALK THEM.

The FIRE, WATER and METAL finishings developed by Stefan Knopp not only preserve but also accentuate the wood's natural structure. During this step, the wood is charred, washed or enriched with metal pigments. As a result, Knopp reveals the unique soul of every single tree trunk, creating one-of-a-kind pieces of art.

The Goal.

The Portfolio.

The Variety.

Carving out the
essentials in dialogue
with nature.

The Table.

EACH TABLE, A DISTINCT PIECE.

The wood for Stefan Knopp's tables is cut from thick trees with a diameter of at least one metre. The biggest challenge is reading the trunk's surface and recognising distinctive elements that make the finished object utterly exceptional. Before being processed, the wood is carefully dried for three to four years. Then each tabletop receives its unique look thanks to a special surface treatment. Eventually, applying resins, oils and lime crowns the process of creating an unmistakable object. Each table echoes the strength and individuality of a centuries-old tree, preserving its legacy most aesthetically. The customer receives a living product full of history bearing the artist's distinct hallmarks.

SK 01

MONOLITH.

The monolith's tabletop is cut from a single trunk piece, reflecting the tree's entire life story. This makes each monolith unmistakably unique. After finishing, all surfaces are sealed multiple times with natural resin oil. The result is a highly durable, almost indestructible, and virtually maintenance-free surface. In fact, the table gains in beauty and authenticity the more it's used.

BASES AND FINISH -> also see p. 74-77

Made from two planks (variant with open wings)

SK08

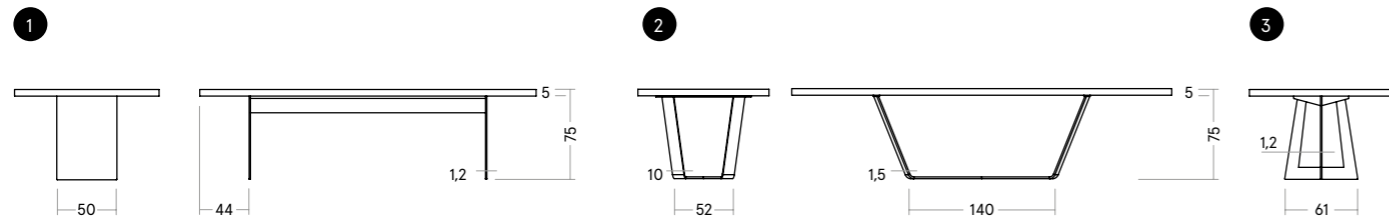

BUTTERFLY.

Butterfly cut refers to the two middle planks “unfolded” from the core area of a log, like a butterfly’s wings. The SK08 is characterised by the symmetry of these two mirrored table planks and their individual grain. The result is an unmistakable table.

1 Panel-leg table frame (Standard)

Made from 3-4 planks

SK04

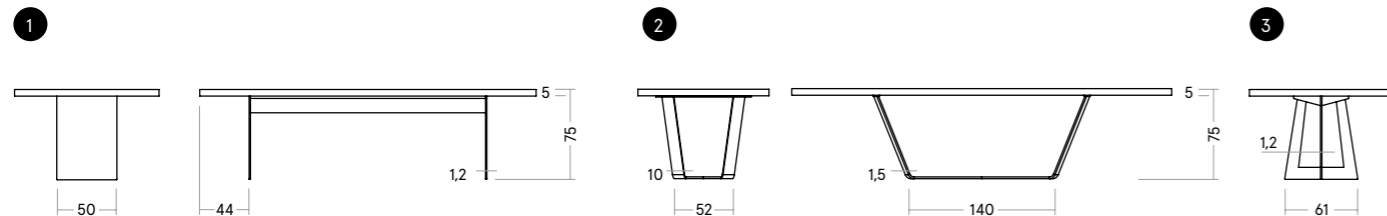

KOMPOSIT.

Individually assembling the planks of the Komposit has multiple advantages. First, the surface can be designed specifically based on the tree's natural growth. In addition, this method allows Knopp a more straight-forward implementation of exceptional dimensions, such as extra-wide tables.

From several planks

SK22

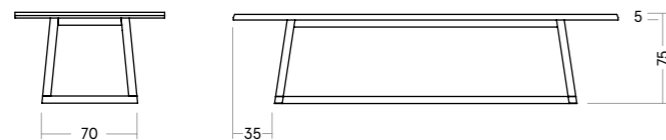

GAUCHO.

Considering crafting a true alternative to the existing steel frame variants, Stefan Knopp had the idea to reinterpret the classic Jogl table. Gaucho brings the cosiness of the parlour into your living space in a new and modern way. The slightly sloping table edge flawlessly reflects the sloping of the table frame. A matching bench complements the arrangement most elegantly.

The Companion.

EVERY PIECE OF FURNITURE IS UNIQUELY STYLISH.

Stefan Knopp has applied his concept of highlighting furniture's uniqueness to yet another range of objects. They celebrate the hidden beauty of wood and extend the artist's portfolio most naturally. As with every other piece, all surfaces are refined using By Nature And Knopp's proprietary process and get sealed with natural resin oil. This creates highly robust companions that stylishly complement both the living room and the table.

Wealth is not
in possession but
in enjoyment.

The Accessory.

FROM FURNITURE TO ART OBJECTS.

Stefan Knopp completes the transition from furniture to art objects with his classy home accessories. Shaped from a single piece of wood, the pieces are refined in the same way as the tables and furniture. The result is again a unique surface with accentuated cracks, holes and fractures. However, the impact of smaller objects is even more perceptible and expressive. That's why Stefan Knopp's accessories enrich everyone's living space both as objects of daily use and as objects of pure art.

The Joy.

The Art.

Special editions
upon request.

The Dare.

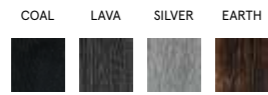

Creativity is intellect
driven by passion.

The Process.

FROM TREE TO LIVING ROOM.

It all begins with the selection of the right material. The trees, most of which are far older than 200 years, are hand-picked. In the next step, after several years of storage and drying, the wood blank is processed until all surfaces are flat. The wood's surface is then treated with a Bunsen burner, so the top layer becomes charred. When brushed, the soft and hard annual rings become accentuated. Finally, the wood is carefully refined during the FIRE, WATER and METAL processes.

Happiness is a habit.
Let's maintain it.

CARE SET.

CLEAN & MAINTAIN · WOOD SOAP is a concentrate for the regular cleaning of Stefan Knopp surfaces. On top of the cleaning effect, the special composition of natural oils preserves the inherent robustness of the wood surface.

REFRESH & REVITALISE · WOOD LOTION is a high-quality emulsion based on natural oils to revitalise wood surfaces developed by Stefan Knopp. Applying the Wood Lotion increases the colour intensity of the wood surface, resulting in a fuller, stronger colour effect that fades again over time.

SUITABLE FOR

WATER SURFACES: Chalk, Sand, Olive, Mud

METAL SURFACES: Gold, Bronze, Platinum, Graphite

General terms and conditions

Our terms and conditions apply to all purchases and deliveries and even to all future contracts, provided that nothing to the contrary has been agreed in writing or expressly recognised.

1. OFFERS

Our offers are non-binding. Orders only become binding when we have confirmed them in writing. A tacit acceptance of delivery constitutes a confirmation of the order.

2. DELIVERY

Our prices generally include "ex works". Other terms of delivery, which will be made known on a case-by-case basis, apply to deliveries outside of the Federal Republic of Austria. We reserve the right to make the decision on the type of packaging, which will be in line with the industry standard. Shipping takes place at the purchaser's risk. Any claims for transport damages, etc., are to be made against the shipping firm within 3 days.

3. DELIVERY PERIODS

Delivery periods are quoted based on our foreseeable delivery options. We will take the greatest care possible to honour these periods, however, we cannot accept any liability pertaining to them. Partial deliveries are expressly permitted; they are considered independent transactions. Should a delivery prove impossible due to a failure of our own supplier or other circumstances for which we are not responsible, we are entitled to withdraw from the contract.

4. NOTIFICATION OF DEFECTS

The customer is obligated to examine the goods received for quantity and condition, and to report any defects in writing within eight days of receipt. Returns will be accepted with our permission. In the event of a justifiable complaint, we shall, at our own discretion, replace or repair the goods in question before returning them, or we shall grant the purchaser an appropriate price reduction. Further claims for damages are excluded. Marginal discrepancies in the execution and packaging as well as in the size or colour do not constitute grounds for making a complaint.

5. PAYMENT TERMS

All prices printed on our price list are recommended net prices. Deliveries can only be made against advance payment. For new customers, production may only begin after payment has been received. Other payment dates or direct debit agreements may only be agreed with us in writing. The day of payment performance is the day on which we gain access to the money. Failure to make payment by the agreed date shall render all of our claims payable immediately. In the event of default on payment, we are entitled to charge interests at standard bank rates. Invoice deductions for disposal of packaging materials, and in particular transport packaging, are not permitted.

6. RETENTION OF OWNERSHIP

We retain ownership of all goods delivered by us until the purchaser has made all payment owed to us, including later claims emerging from our business relationship. The purchaser hereby assigns all his / her claims to the onward sale of goods subject to the retention of ownership to us.

7. MISCELLANEOUS

The place of performance and place of delivery is A-5162 Obertrum am See, Mühlbach 2. The place of jurisdiction for both parties is Salzburg. The invalidity of a provision does not affect the validity of the other provisions. An agreement which comes closest to the intended purpose of the valid provisions shall be valid in place of the invalid provision.

8. DATA PROTECTION CLAUSE

In the event of default on payment, we are entitled to transmit the purchaser's data to a debt collection institution for processing and storage.
